Window Film & Graphic Solutions

What do we do?

What do we do?

At Bonwyke, we **design**, **produce** and **install** outstanding window vinyls to bring life and vibrancy to your glazed areas. With our unrivalled service for bespoke cut vinyl and wide-format colour printed graphics, we have become one of the industry's leaders.

Our scope covers manifestation graphics (marking glazed areas to meet government safety regulations), plus decorative and branding vinyls. So we can achieve exactly the right look, tailor-made for you.

We can provide solutions for protection against Solar Heat Gain, UV degradation, safe breakage of glass, privacy and solar glare. Many applied films are designed to reduce solar gain, reducing the operating capacity and costs of Air Conditioning, helping to reduce carbon emissions.

Our Products

Cut Vinyl

Coloured self adhesive vinyl sheets cut to your design. These can be used to enhance interior office partitions, entrance doors and large glazed areas. We also recommend frosted vinyls for a more subtle, etched effect.

Printed Vinyl

Printed vinyls are really versatile. They allow you to make an area completely private, boldly branded or into a real statement. The effects can be really stunning, thanks to the way we use modern vibrant inks to print any type of graphic design.

Vehicle Wrapping & Signage

With our in-house design capabilities, we are able to design, print and apply graphics to any vehicle giving you a cost-effective way to advertise your business, while also protecting your paintwork.

Advanced Window Films

Our films provide highly cost-effective ways of solving many glazing related problems including safety, solar, UV protection and privacy.

Banners

Vinyl banners are an ideal cost-effective way to get your message across to the customer. They are designed for clients who wish to make an immediate visual impact on a short-term basis such as exhibitions, promotions and one off campaigns.

Design

Bonwyke offer a complete graphics and manifestation service, either producing designs provided by the client or utilising our in-house design service. Whether you have an existing design which you can email to us, or require us to create a completely new concept, we will work closely with you to turn it into a reality.

Our Graphics Department are adept at taking ideas from concept to completion in a trouble-free and efficient manner. For a truly complete service, we'll install your graphics for you, anywhere in the UK.

BonwykeDesign

Produce

Once you are happy with your design, our designers will proof and finalise it, before the production team manufacture ready for installation.

Using the latest wide format printing and cutting machines our skilled operators will process the design in the best way possible for easy application. By keeping production processes 'in-house' we can ensure a high level of quality is maintained. By managing all of the production processes ourselves we can reduce turn around times ready for installation, an important consideration in today's economic climate.

All our products go through a quality check prior to being dispatched ensuring that the visual look you require is what you get, as a finished article. We know you may need your vinyls quickly – particularly if you are having offices refurbished, so we are skilled in accurately completing finished projects with astonishing speed. Coupled with our teams of specialist installers, we can promise you a service second to none.

Install

Bonwyke install all of our high quality supplied window films and graphics as part of our unique and comprehensive service. As you would expect, we are experienced with all the latest building regulations. This means we can advise you on complying with Document 'N' Part 2, the DDA Regulations: Document 'M', plus their relationship to glass identification.

Our teams of Window Film & Graphic installers are industry trained and are 100% compliant with CSCS and CHAS health & safety accreditation. They are all certificated to PASMA and IPAF levels for the use of access equipment and trained in First Aid and Manual Handling techniques. We are members of the Glass & Glazing Federation as well as the International Window Film Association, confirming our status as one of the industry leaders in the UK.
